

# International Day Celebrations

On Friday October 16th we celebrated International Day which began with a parade of Nations. There were 32 different flags and some wonderful National costumes which made for a very colourful start to the day. Children then scattered far and wide across the school to take part in a variety of activities that had everything from traditional games, to quizzes, to cooking and crafts from all round the world. Having worked up an appetite with all the excitement of the morning we were then treated to an amazing array of food in an International Buffet lunch. The day ended with an assembly which included songs and dances from some of the different cultures that are represented in school. Our thanks must go to all the parents that helped to make this a very special day. Whether it was making a costume for your child, organising an activity, providing food or helping to put on a dance performance your contribution was much appreciated. International day is a very important event because we get to celebrate all the different Nationalities that join together to make our school special.
